

MENTOR IN A BOX™

Unmatched, Dedicated Support with
Every Dental Implant You Purchase

We are the first implant company to offer MENTOR IN A BOX™, a clinician support system that accompanies each new implant you purchase. What do we charge for access to leading clinicians who, like you, are 100% committed to patient treatment? Nothing. Zero. It's free. Why? Because we want to earn your loyalty one implant at a time.

Our unique MENTOR IN A BOX™ system gives you direct access to an experienced clinician, so your treatment planning questions can be answered by dentists and not sales reps.

MENTOR IN A BOX™

How it works:

When you open your Marc Nevins® or Pamela Ray™ implant box you will find a small insert with the mentor that has been assigned to you. Once assigned, your mentor will remain the same.

Purchase a Marc Nevins® or a Pamela Ray™ implant.

Open your implant box.

An insert with a photo and the name of the mentor assigned to you will be inside.
